## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Macheledt (Reg. No. 33,956) on April 10, 2006.

The application has been amended as follows:

Figure 1, all numeric blocks need to be labeled.

### ***Allowable Subject Matter***

2. Claims 1-21 are allowed.

3. The following is an examiner's statement of reasons for allowance: many references in the art disclose object/article locating system including a base station and a plurality of receiver tags attached to a plurality of object, wherein the base station transmits a predetermined coded radio signal to activate each receiver tag to generating an alarm to indicate location of the receiver tag in response to the coded signal, such as found in Winder et al. (US 6,133,832) or Kipnis (US 5,677,673). The prior art of record does not teach or suggest, in the claimed combination, a method and system for identifying a lost asset comprising means for generating a first alarm message at an

asset tag indicating that a first predetermined identification signal transmitted from a base station does not match a predetermined code of the asset tag and means for generating a base alarm message at a base station indicating that the asset is lost if a predetermined identification code contained in a second predetermined identification signal transmitted from the asset tag does not match the first predetermined identification signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Winder et al. (US 6,133,832) and Kipnis (US 5,677,673).
